\_Active Maintainers/Creators\_
!!! warning ""

The project is maintained by two core developers who each own a unique layer of the system.

# === "Soham Metha"

{ width="120px"

```
> **Role**: Lead Developer <br>
> **Modules Owned**: VIREX VM, SASM Assembler, VS Code Extension, Docs
!!! tip "info"
    - Designed the **VIREX** Virtual Machine architecture.
    - Developed the **SASM Assembler** and complete instruction set.
    - Built tooling: AST visualizer, debug tools, and VS Code syntax
extension.
    - Authored all core documentation.
    - Maintains the monorepo, versioning, and long-term roadmap.
!!! quote
    *"VIREX is a hands-on way to explore systems programming, not just
study it."* <br>

# Acknowledgments

We gratefully acknowledge the creators and communities that inspired and supported this project:

## • Educational Inspiration:

Tsoding, Dr. Jonas Birch, Low Byte Productions, Cobb Coding for their deep dives into compilers, virtual machines, and systems programming.

### • Ecosystem & Tools:

The open-source communities around the **JVM**, and **language tooling** landscape, for providing extensible blueprints and motivation.

### • Early Support:

Friends, testers, and curious peers who gave feedback during the early stages of development.

VIREX is open. Hackable. Minimal. Built for builders.
